SUMMARY

Currently, I am pursuing my fourth year of computer science(AI) in SRM University, Amaravati.

Being a cse student, I had learned many programming languages which includes C , C++ , JAVA , and PYTHON.

I also had knowledge about Computer Networks, Computer Architecture and DataBase Management Systems.

As, Data Analyst I had learned numpy, pandas, matplotlib and seaborn in python. In addition to I acquire knowledge towards Web application developer I trained in html, css, javascript and php.

A part from it my specialization is AI and ML.

During course duration of ML, I had learned algorithms for supervised and unsupervised learning .

An innovative individual with a b tech in CSE, very passionate to explore the job positions of various streams of IT

LICENSES & CERTIFICATIONS

Basics of Machine Learning - CodeChef

Basics of Python - CodeChef

Introduction to Deep Learning - Great Learning

Python for Machine Learning - Great Learning

Basics Python - Great Learning

Big Data and AI - Great Learning

Building Recommendation Systems - Great Learning

CSS - Great Learning

Data Science Foundations - Great Learning

Divide and Conquer Algorithms - Great Learning

HTML - Great Learning

Machine Learning - Great Learning

Programming Basics - Great Learning

PROJECTS

Research work on Deadline-Aware Task Scheduling in Edge-Cloud Collaborative Computing

E Learning Web Application

Movie Recommendation

Navie Bayes On Iris Data Set

Employee Salary Estimation

File Search Engine

ACHIEVEMENTS

Achieved a silver badge on CodeChef platform

Reached ninja dominator level in CodingNinjas

Achieved a 41 days streak on LeetCode platform and counting

Cleared basic and intermediate levels of problem solving, SQL(basic), JAVA (Basic) and Python(Basic) in HackerRank Platform
